# TOWN OF WATERVILLE

## Annual Report

1935

The accompanying financial report shows a slight gain in assets. We have no outstanding obligations. There will doubtless be an increase in State and County taxes in 1935, with a possible decrease in taxable inventory, due to the impending transfer of some forest lands to the National Forest.

We may still derive satisfaction from helping adjoining towns in their unemployment problems by providing work for some of their citizens.

The Sandwich-Waterville boundary was perambulated in August, 1934.

# THE HISTORY OF THE UNITED STATES

THE HISTORY OF THE UNITED STATES

1917

The history of the United States is a story of the growth of a nation from a collection of small, separate states into a great, unified country. It is a story of the struggles of the people to establish a government that would protect their rights and promote their welfare.

The first step in the process of unification was the signing of the Declaration of Independence in 1776. This document declared the colonies' right to be free and independent states, no longer bound to the British crown.

The next step was the signing of the Constitution in 1787. This document established the framework for the federal government, which would be responsible for the defense and welfare of the entire country.

The Constitution was a landmark document that created a new form of government, one that was based on the principles of democracy and the rule of law.

The history of the United States is a story of the growth of a nation from a collection of small, separate states into a great, unified country. It is a story of the struggles of the people to establish a government that would protect their rights and promote their welfare.
